

# Mobile Version of Agent Web Site Now Available

Mutual Trust Financial Group is pleased to announce the release of a mobile version of the Agent Web Site. This new mobile version has been designed to make it easier for you to view the site on your smartphone.

The mobile version of the Agent Web Site contains the same information as the one you're used to viewing on your desktop computer. The only difference is that the most popular features of the Book of Business section have been formatted specifically for smartphone Web browsers. That means it's easier than ever to view things like policies, policy alerts, pending applications, commission statements, bulletins, underwriting guidelines and our company directory—all while on the go!

## How to access mobile Agent Web Site

Please note that the mobile Agent Web Site is not an app. You do not need to download anything to view it. All you need to do is point your phone's browser to the same URL (<https://agent.mutualtrust.com/Default.aspx>) you use to access the site from your desktop. The site will recognize that you're using a smartphone, and will automatically direct you to the mobile version.

## Tips on using mobile Agent Web Site

Some content on the mobile Agent Web Site is in PDF format. These PDFs are encrypted to ensure security. Some earlier versions of mobile internet browsers are unable to properly display encrypted PDF files and will return an error that the document is not a valid PDF document. Downloading a newer browser, such as Opera or Chrome may be needed. You may also need to have a PDF reader installed on your smartphone, just as you do on your desktop. Many popular applications—such as Google Chrome, Dropbox, ReaddleDocs, File Pro Document Viewer, etc.—come installed with a PDF reader. However, if you are unsure whether you have one, simply click on a PDF to see what happens. If you receive an error, chances are you need to visit your app store to download a PDF reader. Many of them are free. Below is a list of some of the more popular PDF readers available, depending on which operating system you use:

- iOS – Adobe Reader, ReaddleDocs, Dropbox, PDF Reader Pro, PDF Expert
- Android – Adobe Reader, Mantano Reader, Quick Office Pro, Office Suite Viewer, Foxit Reader
- WindowsMobile – Adobe Reader, Microsoft PDF Reader

If you have any questions about how to access the Agent Web Site on your smartphone, please contact our Sales Support Team at 1-800-323-7320, ext 5140.
